

Responsible AI Policy

AI Uniti Pty Ltd / ABN: 36694238821

Last updated: 17th January 2026

1. Principles

AI Uniti commits to:

- ethical and responsible AI use
- transparency and accountability
- human oversight of automated decisions
- lawful and fair data usage

2. Human-in-the-Loop

AI Uniti systems are designed to support, not replace, human decision-making.

3. Bias & Fairness

We actively seek to:

- reduce bias in models and datasets
- monitor system outputs
- allow customer review and intervention

4. Transparency

We clearly disclose:

- AI-generated outputs
- system limitations
- reliance responsibilities

5. Customer Responsibility

Customers are responsible for:

- appropriate configuration
- lawful use of outputs
- validating decisions made using AI
